LT-20SS3	50	20.6	18.75	14V/20A	230/400	3 Phase	2190cc	Electric/ATS	38l	6.9l	1550x720x810	750

Diesel Generator 5000w (with oil sensor)

Diesel 5000W Silent with Automatic Mains Failure Panel

Alert

As the generator is operating, the system will alert and close the generator if the parameter exceeds the max. One which is set by the user. For various overload protection alert needs as:

- Low voltage protection
- High voltage protection
- Low voltage protection of the battery
- High voltage protection of the battery
- Engine temperature protection
- Low oil protection
- The protection of starting unsuccessfully (it can't be cancelled)
- The protection of stopping unsuccessfully (it can't be cancelled)

**You can stop alerting and come into the main screen by pressing the menu key after alert*
